OFFICIAL PRESENTATION RELEASE

September 4, 2023 - *The Dark Titan Company* is officially announced and below is the official details of the company's inception, its purpose, plans, and future.

The Dark Titan Company was designed after the conclusion of **Chapter 1** for *Dark Titan Entertainment*, the former main company. After December 2022, evaluations were made and a change was necessary for growth. - *Ty'Ron W. C. Robinson II, Creator/Owner.*

The Dark Titan Company: Introduction

▪ **Business Structure Changes**

- ↳ **Character/Brand Focus:** With the wide array of characters and stories throughout the Universe of Realms, the new goal for the Dark Titan Entertainment division is to place major focus upon characters, worlds, and brands across all products and platforms.
- ↳ **Transmedia Storytelling:** Many characters and worlds bring forth great potential. Such is the purpose for transmedia storytelling (I.E. *Storyworlds*). Several IPs under the Dark Titan Entertainment division will be centered upon this fashion of storytelling.
- ↳ **Licensing:** To expand the characters and brands across the world, licensing is key to accomplishing the mission. Through video games, animation, action figures, and etc, the worlds of the Universe of Realms will be known for all to take part.
- ↳ **Publishing Changes:** After five years of sheer focus upon the Publishing industry, the new structure for the Dark Titan Publishing subsidiary will include less releases throughout a year. Releases will take place in the Spring and Fall months. Less prose titles will follow as plans for art books, graphic novels, manga, and encyclopedia are in sight. Some are already in early development such as the *EverWar Universe Atlas* and *Lands of the Stellarspace* artbooks set to release in 2024.

- ↪ **Industry Interests:** Originally, the entertainment industry was the dominant focus of the company. However, with The Dark Titan Company at the centerfold, other industries are being observed as potential for company growth.
- ↪ **Investing:** Currently The Dark Titan Company has invested into several ongoing and start-up companies. This information is classified. But, investing is in the long-term plans for the company and its future.
