NOVEMBER 2017 - DECEMBER 2022

THE DARK TITAN COMPANY

INTRODUCTION

BUSINESS STRUCTURE CHANGES

✓ Character/Brand Focus

With the wide array of characters and stories throughout the Universe of Realms, the new goal for the Dark Titan Entertainment division is to put major focus on its characters, worlds, and brands across all products and platforms.

✓ Publishing Changes

After five years of focus upon the Publishing industry, the new structure for the Dark Titan Publishing division will include less releases throughout a year. Releasing will take part in the Spring and Fall months. Less prose books will follow as plans for artbooks, graphic novels, manga, and encyclopedias are in sight.

✓ Transmedia Storytelling

Many characters and worlds bring forth great potential. Such is the reason for transmedia storytelling (I.E. Storyworlds). Several IPs under the Dark Titan Entertainment division will be centered upon this fashion of storytelling.

✓ Industry Interests

Originally, the industry of focus was the entertainment industry. Now, with The Dark Titan Company at the centerfold, other industries are being looked at as potential for company growth.

✓ Licensing

To expand the characters and brands across the world, licensing is a sure-fire way of accomplishing the mission. Through video games, animation, action figures, etc, the worlds of the Universe of Realms will be known for all to take part.

✓ Investing

Currently, The Dark Titan Company has invested into several companies, both start-ups and ongoing. Investing will be a large, yet small part of the company's future.
